The classic
becomes
modern

Now renews
everything
but safety
and efficacy

*Plexe[®], the first patented plasma
technology for aesthetic medicine*

FOR TEN YEARS ON THE MARKET

Only one milestone can last so long and become a classic of technology

PRESENCE IN MAJOR EUROPEAN UNIVERSITIES

Technological innovation has a direct relationship
with high-level academic teaching.
A prestigious challenge that few can access

HISTOLOGICAL STUDIES

Scientifically and publicly supporting is the basis for contributing with
concrete arguments to maximum scientific progress.
Plexr® is the only plasma brand that has carried out studies and scientific
evolutions continuously since 2011

PLEXR_{pro}

SAFETY

The unique device able to recreate the precise and stable phenomenon of Plasma

VERSATILITY

Skin retraction and removal of any benign neoformation

TOUCH SCREEN DISPLAY

Complete digital control

WIRELESS HANDPIECES

No cable connection and long-lasting battery (up to 5 days)

UNLIMITED SOFTWARE UPDATES

All the technological future in your hands, just through one USB port

Plasma intense
Higher energy

Results

S

Safe: as scientifically demonstrated through several international publications, Plexr® technology does not damage the skin under the basal lamina.

M

Modern design: same high quality technology, new compact design realized following the rules made in Italy: product origin, quality of materials, care over production and consumer protection

A

Agile: 2 handpieces, totally wireless device, transportable in a comfortable trolley bag. Software user friendly to support the doctor in performing each treatment (continuous and fractional mode)

R

Recognized technology: European patent, registered trademark, several awards won during the last years: Plexr® is the pioneer of plasma in Aesthetic Medicine and our technology is famous all over the world

T

Trusted results: thousands of treatment successfully performed; 98% satisfaction of patients; time-reduction for each treatment (with respect to classical methods); more than 20 scientific publications on international journals that proof the efficacy and safety of the technology
